IVINS CITY 2022 GENERAL PLAN RESIDENT SURVEY REPORT: PART 1 of 2

Date: December 15, 2022

To: Ivins City Council

From: Patty Dupre

Re: Overview of the Survey Process & Results

We reached a 52.7% response rate for the survey. This high rate is unusual for this type of “blind” survey, where we did not have contact information on who received the survey so we could follow-up. This large response is due in part to Mayor Hart’s determination to (a) make sure all households received a survey, and (b) his advertising the survey extensively through the “Let’s Plan Ivins Future Together” campaign. A copy of the survey is found at the end of this report.

The implementation, input, proofing, and corrections were done by 12 exceptional volunteers, without whom this would have been an extremely difficult and costly project. All totaled, the volunteers spent over 250 hours putting up/taking down signs, coding the surveys, inputting data, sorting, and proofing the results for 2,244 surveys which contained over 210,000 fields of data.

The volunteers who spent countless hours getting the survey completed: Lois Diehl, Sharon Gillespie, Sally Tom, Chris Haddad, Pam Gardiol, Lisa Ganz, Sara Dupre, Sharon Barton, Mike and Dana Cook, Jack and Jackie Sculley.

In addition to the volunteers, Mayor Hart spent hours ensuring that mail treated as undeliverable by the Post Office got delivered correctly, opening and sorting surveys, and more. Mike Scott dictated all the written comments on the surveys into a Word document (available in a separate 100+ page PDF) and helped design and produce the final report. The volunteer time also excludes my time designing the methodology, input, output, and proofing spreadsheets. City staff also provided invaluable help, led by Cade Visser.

Why Conduct This Survey?

The city of Ivins is updating their General Plan, which was last done in 2015. In January 2022, there were 6 community meetings to gather input from the residents about what changes they would like to see to the General Plan and share what is important to them about Ivins. The ideas that came from those meetings were summarized and presented to the City Council.

Although total in-person and Zoom attendance was close to 600 people, many attended more than one meeting and many couples attended meetings together. We estimate there were about 250 households that attended one or more of those meetings. Unfortunately, a lot of Ivins residents were unable to attend.

This survey, the first of its kind in Ivins, reached out to all Ivins households to get their opinions on important issues facing the city, and to better understand what’s important to its residents. The surveys were mailed (one survey per household), and people were provided a self-addressed, stamped envelope to return the survey.

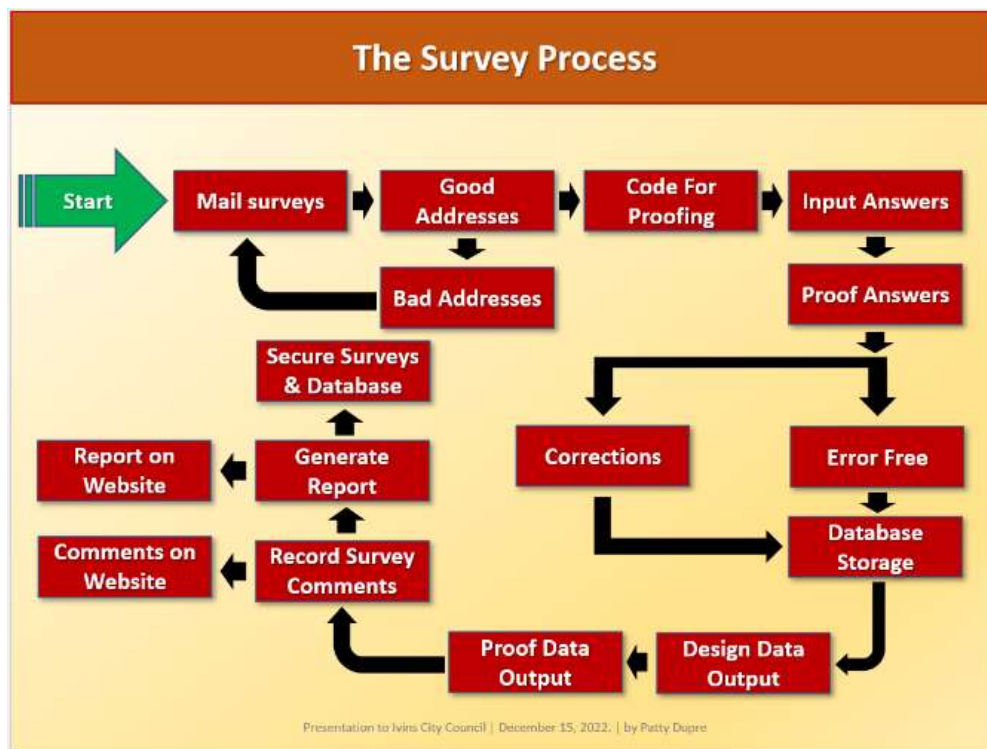

Timeline of Events

- 4,553 surveys were mailed to all Ivins households on November 3rd, with a deadline of November 20th.
- More than 300 were returned due to an invalid address (billing addresses should have been used), and over 200 were returned as USPS said they were not deliverable, when in fact it was a valid address.
- Those 300 returned due to a wrong address were labeled with the billing address by staff, and mailed again, as were the surveys with valid addresses.
- As a result of many getting the survey late, the deadline was extended to December 7th.
- The volunteers processed all surveys with everything input, proofed, and corrected by December 7th.

IVINS CITY 2022 GENERAL PLAN RESIDENT SURVEY REPORT: PART 1 of 2

How We Maximized Survey Responses

- Information posters were placed throughout the city by 6 volunteers.
- 25 “yard signs” were installed in public areas throughout the city by 2 volunteers.
- Two electronic message board signs were placed at both ends of the city for one week.
- The Ivins website encouraged all to participate.
- The “Let’s Plan Ivins Future Together” campaign was repeatedly the lead topic in the Ivins monthly newsletter.
- Reminders to participate were posted on Nextdoor.
- Surveys were re-sent to those returned due to a faulty address.

Survey Integrity

All surveys were labeled with a unique ID number plus one of the 14 neighborhood codes (the Ivins emergency areas). This allowed an easy way to proof the data input, allows the results to be audited, and gave us the ability to present both the survey results and participant comments by neighborhood. The surveys were input using Microsoft Excel at City Hall in a password protected file. Data was backed up daily and stored in a secure area.

Unexpected Issues

The first 54 questions on the survey relate to items the city should focus on and encourage. These were ranked 1-5, with 1 being the least important. There were also two questions for people to rank on a scale of 1-10: (a) Attributes that enhance your quality of life in Ivins City and (b), Why did/do you choose to live in Ivins City.

For the last 2 questions, close to 34% of the respondents misinterpreted the instructions to rank just 10 of the attributes from 1-10. In addition, the ranking was reversed with 1 being most important instead of least important like the earlier 54 questions. Even so, 66% percent of the respondents ranked these 38 questions correctly, and those are the ones we used for the analysis.

What if Every Neighborhood Had a 100% Response Rate?

Based on more than 100 pages of comments collected from the 2,244 surveys, there are some controversial issues. Plus, although the overall response rate was 52.7%, the rate varied by neighborhood, from 35.5% in Township South to 71.1% in West Center.

We took four of the frequently comments on issues, and calculated what the results would be if (a) every household in every neighborhood responded, and (b) their responses matched the actual survey responses for whichever neighborhood they were in. That calculation shows in the charts and tables below as the "100%" results, compared to the "actual" which are the results from the survey.

Organization of Tables & Ranking System

There are three types of tables in this report: (1) Tables by neighborhood, (2) tables by survey question, and (3) quality of life tables. The first two groups of tables use a 1-to-5 ranking system. The last set of tables asked respondents to rank their top 10 choices.

1-to-5 Ranking System

Survey respondents were asked to rank the first 54 questions on a scale of 1-5, with: 1 = Poor, not important, opposed; 3 = Neutral; 5 = Excellent, very important, completely in favor. We also grouped the “negative” responses (ranking of 1 or 2) labeled “Pct 1-2” and the “positive” responses (ranking of 4-5) labeled “Pct 4-5.”

Tables by neighborhood

The tables for each of the 14 neighborhoods, plus the city overall, consist of four pages for each neighborhood. These pages show the answers to the first 54 questions for that individual neighborhood, grouped into four topics:

- Overall satisfaction (8 questions)
- What resident needs should Ivins focus on? (20 questions)
- What types of development should Ivins encourage? (12 questions)
- What types of businesses would you like to see encouraged? (14 questions)

Tables by survey question

The 54 tables for each individual survey question show how each of the neighborhoods rated that question, using the complete 1-to-5 scale, as well as the negative response grouping (ranking of 1-2), and the positive response grouping of (4-5). These pages also show the ratings given by full-time versus part-time residents, households with children at home, and participants based on how long they have lived here (in four categories).

Quality of life tables

There are two additional tables: (1) Attributes that enhance your quality of life in Ivins City (21 choices), and (2) Why do/did you choose to live in Ivins city? (17 choices). These tables present city-wide results showing how respondents ranked the ten most important attributes to them.

LET'S PLAN IVINS' FUTURE TOGETHER

As we move forward with our General Plan Review the City Council wants to obtain as much input and information from you our residents as we can. We deeply desire to hear from all of you so please, please, please fill out and return this survey regardless of where you live in the city, how long you've lived here or plan to stay, your age or your family make up. It will only take a few minutes to complete so you can easily participate. After all, It's "our community" so we should "Plan Ivins Future Together."

**Please return your completed survey (one per household)
in the enclosed postage pre-paid envelope no later than November 20, 2022.**

*The return envelope has a coded number rather than your return address to protect your privacy.
The code will only help us establish general areas of the city from which the responses are coming.*
